REQUEST FOR DONATION OR SPONSORSHIP

Wilco Policy

Wilco, like most businesses, cannot afford to contribute to every cause, no matter how worthy. Our policy is to help out most organizations or groups having some involvement with agriculture in our market. In addition, we contribute to some youth groups, civic organizations and various other local fund raising activities that are taking place in areas where we have strong community ties.

Generally speaking, we do not contribute to individuals or sponsor individual participation in contest or competitive events. In order to fairly distribute our donation budget we limit one donation per organization within a calendar year. Please make every effort to limit your organizations representatives from contacting more than one Wilco location, as our giving is organization-wide rather than location specific.
